

Skúsenosti z prípravy projektov DTP

Technická univerzita v Košiciach

Ing. Martin Dujčák, PhD.

Národný informačný deň pre druhú výzvu na predkladanie projektov Interreg Dunajský nadnárodný program 2014 – 2020

Košice, 23.03.2017

O nás

- Technická univerzita v Košiciach, Ekonomická fakulta
- Vedecko-výskumný tím pod vedením doc. Ing. Beáta Gavurová, PhD., MBA (prodekanka pre vedecko-výskumnú činnosť a doktorandské štúdium)
- Príprava a realizácia projektov:
 - Interreg Central Europe – CentralLAB, URBAN INNO
 - Interreg Danube – InnoHPC, Attractive Danube
 - Visegrad Fund – SMILE
 - Univerzitný vedecký park TECHNICOM pre inovačné aplikácie s podporou znalostných technológií
 - BIP4 - Balík inovatívnych prvkov pre reformu vzdelávania na TUKE

Monitoring a analýza výziev

3 typy aktivít:

- Sledovanie hlavných podporných programov
- Hľadanie nových príležitostí
- Analýza vhodnosti a oprávnenosti žiadateľa a partnera

Úspešné žiadosti

- **ATTRACTION DANUBE - Improving Capacities for Enhancing Territorial Attractiveness of the Danube Region**
 - Programme Priority: PA4. Well governed Danube region
 - Programme Specific Objective: SO4.1 Improve institutional capacities to tackle major societal challenges
 - Slovenský partner: Technická univerzita v Košiciach (TUKE)
 - Projektový manažér: Ing. Mojmír Prídavok, PhD.
 - Obdobie riešenia projektu: 1.1.2017 – 30.6.2019
 - Celkový rozpočet: 1.860.000,00 EUR (TUKE - 120.000,00 EUR)
 - Cieľom projektu je vytvorenie spoločnej nadnárodnej platformy a 11 národných platforiem pre monitorovanie atraktívnosti regiónov z rôznych uhlov pohľadu - ekonomického, sociálneho, kultúrneho a prírodného, a následná implementácia programov posilňujúcich kapacity zainteresovaných strán za účelom lepšieho využívania a plánovania regionálnych aktív.

Úspešné žiadosti

- **InnoHPC - High-performance Computing for Effective Innovation in the Danube Region**
 - Programme Priority: PA1. Innovative and socially responsible Danube region
 - Programme Specific Objective: PA1. Innovative and socially responsible Danube region
 - Slovenský partner: Technická univerzita v Košiciach (TUKE)
 - Projektový manažér: Ing. Mojmír Prídavok, PhD.
 - Obdobie riešenia projektu: 1.1.2017 – 30.6.2019
 - Celkový rozpočet: 2.054.600,00 EUR (TUKE - 130.000,00 EUR)
 - Hlavným cieľom InnoHPC je vytvoriť nadnárodné laboratórium pre vysoko výkonné počítanie (High_performance Computing) s cieľom podporiť medzinárodnú spoluprácu vo forme návrhu a vývoja inovatívnych produktov s vysokou pridanou hodnotou. Projekt umožní výrazné zlepšenie využívania infraštruktúry pre tvorbu inovácií tak z inštitucionálneho ako aj technologického hľadiska.

Úspešné žiadosti

- **Danube GeoTour - Valorisation of geo-heritage for sustainable and innovative tourism development of Danube Geoparks**
 - Programme Priority: PA2. Environment and culture responsible Danube region
 - Programme Specific Objective: SO2.2 Foster sustainable use of natural and cultural heritage and resources
 - Slovenský partner: Prešovská univerzita v Prešove (UNIPO)
 - Projektový manažér: PhDr. Radovan Bačík, PhD. MBA
 - Obdobie riešenia projektu: 1.1.2017 – 30.6.2019
 - Celkový rozpočet: 1.666.362,50 EUR (UNIPO - 79.250,00 EUR)
 - Hlavným cieľom Danube GeoTour je zvýšenie povedomia o 8 geoparkoch výnimočných svojou prírodnou a kultúrnou hodnotou. Na území týchto geoparkov sa vytvoria spoločné unikátnej trasy, spájajúce monumenty a vzácne prírodné objekty v kombinácii s návrhom inovatívnych turistických produktov, čo napomôže zvýšeniu atraktívnosti a šíreniu povedomia o výnimočnosti jednotlivých území.

Úspešné žiadosti

- **NETWORLD - NETWORKING IN PRESERVING THE FIRST WORLD WAR MULTICULTURAL HERITAGE IN THE DANUBE COUNTRIES**
 - Programme Priority: PA2. Environment and culture responsible Danube region
 - Programme Specific Objective: SO2.2 Foster sustainable use of natural and cultural heritage and resources
 - Slovenský partner: Prešovská univerzita v Prešove (UNIPO)
 - Projektový manažér: PhDr. Radovan Bačík, PhD. MBA
 - Obdobie riešenia projektu: 1.1.2017 – 30.6.2019
 - Celkový rozpočet: 1.869.398,00 EUR (UNIPO - 105.763,00 EUR)
 - Hlavným cieľom NETWORLD je zvýšenie povedomia a návrh udržateľnosti využívania pamiatok Prvej svetovej vojny, v prepojení na turistické aktivity, v rámci území participujúcich krajín. Spoločná databáza pamiatok, ako jedna z aktivít projektu, napomôže rozšíreniu znalostí o súvislostiach miest a monumentov s Prvou svetovou vojnou, v nadväznosti na množstvo akcií pre verejnosť, realizovaných počas trvania 7 projektu.

Príprava žiadosti

1.krok – analýza výzvy

Základné dokumenty:

- <http://www.interreg-danube.eu/>
- Cooperation Programme
- Applicants Manual

APPLICANTS PACK

The Danube Transnational Programme produced an Applicants Pack to provide stakeholders and potential project applicants with appropriate and high-quality information about the programme, the options and conditions for the development of their project ideas into full-fledged project proposals and the assessment and selection procedures for proposals. The Application Pack includes the following documents: Cooperation Programme, Applicants Manual, Call Announcement, Expression of Interest and Application Form (for the 2nd step). These documents will be subsequently published before the call is launched (except the Application Form related to the 2nd step).

A) COOPERATION PROGRAMME

Document developed by the States and Regions of the area covered by the Danube Transnational Programme and approved by the European Commission which defines the priorities as well as the programming and EU funds required to achieve these priorities. It serves to implement a Community support framework, inter alia, to contribute to the Union strategy for smart, sustainable and inclusive growth and to the achievement of economic, social and territorial cohesion.

[Download Cooperation Programme](#)

[Download Annex 1_Glossary](#)

[Download Annex 2_Map_and_figures](#)

[Download CP Executive Summary](#)

B) APPLICANTS MANUAL

The Applicants Manual is part of the Application Pack intended to provide applicants with detailed and specific information about the programme, project requirements, eligibility rules, application and assessment processes, project implementation principles and to guide them through the drafting of the project proposals.

SUSTAINABLE MANAGEMENT OF AGRICULTURE IN PROTECTED AREAS ALONG DANUBE (DANUBEPAA)

PROJECT IDEA INFORMATION

Priority	✓ Innovative and socially responsible Danube region - Improve framework conditions for innovation
Project Idea Promoter (name of the institution)	National Institute for Chemical-Pharmaceutical R&D, ICCF Bucharest
Needs and challenges (Needs, main problems or challenges to be addressed)	Modern agriculture is based on a quest for short-term efficiency, economic gain and ecosystem sacrifices. In protected areas (PAs), farmers are challenged to enhance habitats quality through designing farming systems to mimic the structure and function of natural ecosystems. The experts' team will provide some ways to do so that maintain or increase agricultural output, reduce production costs or enhance the market value of their products while preserving biodiversity, using a common strategy.
Objectives (main and specific objectives to be achieved)	-
Main results and core outputs	-
Main foreseen activities	A1. Assessment of agricultural potential and identifying main types of farming practices in the envisaged areas. Develop a common methodology for assessing the agriculture impact on biodiversity and ecosystem services. A2. Evaluation, systematization and mapping of agriculture soils within the envisaged N2000 sites/protected areas. A3. Soil quality monitoring for sustainable development A4. Improving soil management through knowledge exchange related to innovative environmentally friendly agricultural technologies. Elaborating a best practices guide for ecoagriculture.
Innovative character of the project idea	Ecological agriculture - innovative technologies: application for protected areas along Danube (small investments - pilot projects).
Estimated Total Budget (in EUR)	-
Estimated duration (in months)	30

PARTNERS INVOLVED AT THIS STAGE

ERDF Partners	Romania, Bulgaria, Hungary, Slovenia, Croatia
IPA Partners	Bosnia-Herzegovina, Serbia
Associated Strategic Partners	-

PARTNERS REQUESTED

ERDF Partners	Germany, Austria, Slovakia, Czech Republic
IPA Partners	Montenegro
Associated Strategic Partners	-

THROUGH GASTRONOMY TO CULTURAL UNDERSTANDING
Created on 13 Mar 2017

Střední odborná škola Josefa Soušedky Vsetín
Education, Training Centre or School

CREATOR >>

Looking for Partnership

The outcomes of the project will help to transfer gained knowledge to different European countries and simplify understanding to production processes between different countries.

The intended outcomes are:

- Worksheets with the technological procedures of food preparation that each partner prepares for other partners
- Video records depicting direct food preparation, made during interregional meetings
- Presentation of the production processes, represented in a way so they can be usable for education programmes of all the partners
- A multilingual dictionary of basic terms in all languages of participating countries - English
- A comparative study of teaching content in gastronomy fields from all the participating countries

Dirección de Proyectos Europeos

Erasmus+ partner search - Industry 4.0

We are working in a project proposal, to be submitted under Erasmus+ Strategic Partnership, VET sector, and looking for potential partners experienced in industry 4.0.

We need partners with a specific profile, that is:

- Industry Business organisations
- Applied research centres/organisations
- VET providers working on digital transformation on industry

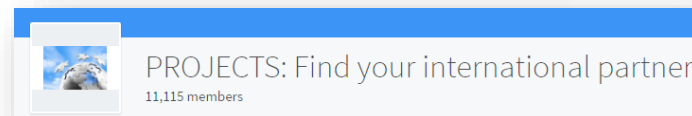

We will consider all expressions of interest received until Wednesday midday. Thank you very much in advance!

Feel free to contact by email: [j.santos \(@\) inveslan.com](mailto:j.santos@inveslan.com) [Show less](#)

3.krok – hľadanie partnerov

Možnosť č.6: Odporúčania spolupracujúcich organizácií

URBAN INNO: Kick-off meeting, 2015

Neposudzujte potenciál partnerskej organizácie podľa krajiny, ale podľa ich znalostí a skúseností

NETWORLD: Kick-off meeting, 2016

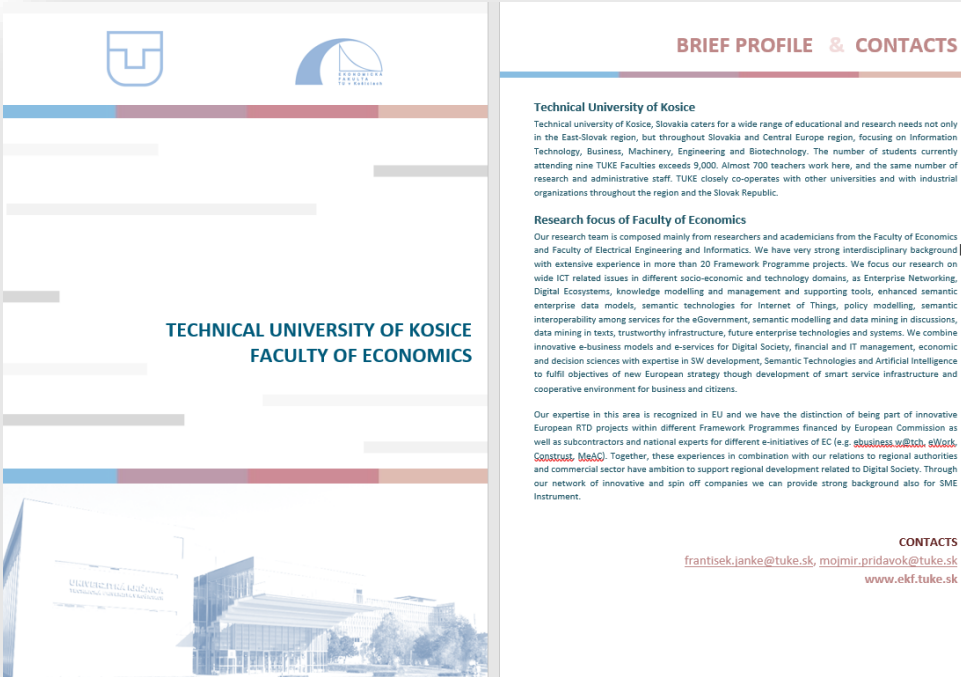

Príprava žiadosti

4.krok – oslovenie partnerov

Je dôležité prezentovať
potenciálnym partnerom:

- Základné informácie o našej inštitúcii

- Naše znalosti, špecializáciu
- Projektové skúsenosti
- Spolupráca na národnej a medzinárodnej úrovni

**TECHNICAL UNIVERSITY OF KOSICE
FACULTY OF ECONOMICS**

BRIEF PROFILE & CONTACTS

Technical University of Kosice
Technical university of Kosice, Slovakia caters for a wide range of educational and research needs not only in the East-Slovak region, but throughout Slovakia and Central Europe region, focusing on Information Technology, Business, Machinery, Engineering and Biotechnology. The number of students currently attending nine TUKE Faculties exceeds 9,000. Almost 700 teachers work here, and the same number of research and administrative staff. TUKE closely co-operates with other universities and with industrial organizations throughout the region and the Slovak Republic.

Research focus of Faculty of Economics
Our research team is composed mainly from researchers and academicians from the Faculty of Economics and Faculty of Electrical Engineering and Informatics. We have very strong interdisciplinary background with extensive experience in more than 20 Framework Programme projects. We focus our research on wide ICT related issues in different socio-economic and technology domains, as Enterprise Networking, Digital Ecosystems, knowledge modelling and management and supporting tools, enhanced semantic enterprise data models, semantic technologies for Internet of Things, policy modelling, semantic interoperability among services for the eGovernment, semantic modelling and data mining in discussions, data mining in texts, trustworthy infrastructure, future enterprise technologies and systems. We combine innovative e-business models and e-services for Digital Society, financial and IT management, economic and decision sciences with expertise in SW development, Semantic Technologies and Artificial Intelligence to fulfil objectives of new European strategy through development of smart service infrastructure and cooperative environment for business and citizens.

Our expertise in this area is recognized in EU and we have the distinction of being part of innovative European RTD projects within different Framework Programmes financed by European Commission as well as subcontractors and national experts for different e-initiatives of EC (e.g. [eBusiness@Work](#), [eWork](#), [Cosensus](#), [MeAC](#)). Together, these experiences in combination with our relations to regional authorities and commercial sector have ambition to support regional development related to Digital Society. Through our network of innovative and spin off companies we can provide strong background also for SME Instrument.

Mobile	00421 904 460 669
E-mail	mojmir.privadok@tuke.sk
Geographical Scope of Activities	regional
Relevance for the proposed Project (thematic Competence) (2000 characters)	Technical University of Kosice is the leading Slovak public technical university with more than 60 years history, which caters for a wide range of educational and research needs not only in the East-Slovak region, but throughout Slovakia and Central Europe region, focusing on Information Technology, Business, Machinery, Engineering and Biotechnology. TUKE closely cooperates with other universities and with companies throughout the region and the Slovak Republic what could be very valuable for the objectives of the project. With respects project domain, as a part of the university facilities, University Science Park (TECHNICOM) has been built, TECHNICOM is organizationally facilitated by professional science and innovation management, whose main mission is to effectively support active progress in applied research and development, innovation culture and competitiveness of the involved organizations, including consumer production and services organizations from both public and private sector. Its activities also contribute to the growth of innovation-focused companies by providing the pre-incubatory services related to consequent excubation of spin-off or start-up enterprises and institutions. Our research team, focuses on wide ICT related issues in different socio-economic and technology domains, as Enterprise Networking, Digital Ecosystems, Knowledge Modeling and Management and Supporting Tools. We combine innovative e-business models and e-services for Digital Society, financial and IT management, economic and decision sciences with expertise in SW development, Semantic Technologies and Artificial Intelligence.
What is the Benefit for the Organisation and the Territory that represents from Participating in this Project? (2000 characters)	The activities realized within the InnHPC project will position TUKE as a regional facilitator in network of stakeholders of HPC-enabled innovations (HPC service providers, innovators, users, investors, policy makers, etc.). The newly formed network will also capitalize the existing assets of the current university scientific park TECHNICOM. Beside this, TUKE will enhance the knowledge in the domain of business support to HPC innovation creation, as it will better understand needs of all interested parties. The former HPC innovation network will help to fulfil the aims of National Strategy for Smart Specialization as well as the Smart Specialization Strategy of Košice Region will be supported – increase level of cooperation in new forms thanks to innovative communication tools, develop learning system providing new skills and entrepreneurial competences leading to higher competitiveness and implementation of highly needed changes to improve business environment and support area with highest potential – all having very positive effect on regional innovation potential and prosperity.
Description of previous Participation in other EU funded Projects (2000 characters)	Our expertise in mentioned area is recognized in EU as we have been part of more than 20 European RTD projects within different Framework Programme or H2020, just to mention few: OCOPOMO, Open Collaboration in Policy Modelling, European Commission, FP7-ICT eBBITS, Enabling business-based Internet of Things and Services – An interoperability platform for a real world populated Internet of Things domain, European Commission, FP7-ICT Adaptive, Occupant Aware, Intelligent and Adaptive Enterprise, European Commission, FP7, ICT systems for Energy Efficiency eBEST, Empowering Business Ecosystems of Small Service Enterprises to Face the Economic Crisis, European Commission, FP7 SME KNOWBRIDGE, The Cross Border Knowledge Bridge in the Renewable Energy Sources Cluster in the East Slovakia and North Hungary, European Commission, FP7-REGIONS eGovPolinet, Building a global multidisciplinary digital governance and policy, European Commission, FP7 Our expertise is also recognized in the European Territorial Cooperation Instruments, INTERREG Central Europe Programme Projects: "Centralab - Central European Living Lab for Territorial Innovation", "IDEA: Innovative Development of European Areas by Fostering Transnational Knowledge Development", "KASISTS: Knowledge-enabled Access of Central Europe SMEs to Efficient Transnational Transport Solutions" and "URBAN INNO: Utilizing innovation potential of urban ecosystems"
Revenues generated by the Project (250 characters)	No revenues foreseen within the project.
Amount	.
